**PROJECT - REFORM IN THE HEALTH SECTOR**

No 26-00-453  
Sofia, 10.04.2001

To whom it may concerns

**R E F E R E N C E**

**Dear Sirs,**

The engineering company "INOS -1" Ltd. has won the public tender with subject "Centre of transfusional hematology - Sofia" and concluded the contract with us as a contractor of building, construction and installation works "turn key". "INOS -1" Ltd. has been chosen because of the professional and in the same time competitive

Offer, presented by it, that included restavration, construction and consolidation works, electricity-installation works - high and low voltage, reserve electricity - supply with a diesel-generator, fire-detecting system, security system, radio system, telephony system, HVAC, specialised refrigerator cameras, laundry, technological equipment for the attendance of the donors, landscaping and gardening of the surrownding area.

The project is being financiated by the World Bank in accordance to the programme for the restruction of the Health sector.

The Building is a monument of culture with size 4500 square meters.

The team from "INOS -1" Ltd. accomplished the works successfully, with great quality of the works done and in the contracted terms, following the accepted programme. All the problems, that arose in the time of the works were solved with a competent and professional manner, that followed our needs and wishes.

Our experience in working with "INOS-1 Ltd." gives us the base to confirm, that this is a partner, that keeps exactly its contract obligations, offering quality construction and installation works.

D-r Stefan Sirakov
