PERFORMANCE CERTIFICATE

Herewith we confirm that after winning a public procurement INOS 1 Ltd. was chosen as Main Contractor of the construction and installation works of project “Structural strengthening and repair and restoration activities of the house of Municipal Cultural Institute „Krasno selo“, Sofia, 41 Tzar Boris III Blvd - Built-up area 5133 m².

Commencement date 28 September 2015 – Completion date 27 November 2017

Contract amount without VAT: 3 297802 BGN

The building is III category according to art. 137, par. 1, p. 3 of LSP.

Complete structural strengthening of the building was carried out with additional reinforced concrete and steel elements, new reinforced concrete walls (washers) providing antiseismic resistance to the building, restoration of the level of the slab at level +3,85.

Energy-efficient measures have been implemented - Thermal insulation of hard rock mineral wool in the attic space. A ventilated suspended façade is mounted on rock mineral wool. Total replacement of the existing windows and exterior doors with PVC windows and doors.

Construction and installation works for construction and restoration of electrical, W&S and HVAC installations, finishing coatings were carried out, namely: Complete replacement or restoration of the flooring in all rooms, refreshment of wooden decorative elements and doors of the halls, decorative wooden grilles in front of the radiators. Refreshment of the latex-painted walls was performed in all rooms. The doors of evacuation exits have the required fire resistance and are fitted with anti-panic locks.

An accessible environment for disabled people is provided with spaces and sanitary facilities, as well as ramps at the entrance to the building and a lift platform from the first to the second floor.

The activities were divided into three stages. After the completion of each stage, the building was in a condition suitable for operation, notwithstanding whether and when the next stages would be realized in order not to interrupt the work of the cultural institute.

INOS 1 has performed all works with high quality. The work of INOS1 Ltd. is in conformity with all international, European and Bulgarian standards for quality, health and safety conditions at work and environmental protection in construction.

INOS 1 Ltd. has highly qualified team for execution of construction and installation works.

We would not hesitate to recommend INOS 1 Ltd. to any client or project manager and confirm that they are working hard, in team, and are able to perform works in shortened terms and are an excellent partner.

Best regards,

Hristo Apostolov

Mayor of District "Krasno Selo"
