To whom it may concern

REFERENCE

Dear Gentlemen,

After winning a public tender, the engineering company “INOS-1” Ltd. performed construction works as main contractor on “Cross-border Lesovo-Hamzabeili”.

“INOS-1” was chosen because of the professional and competitive offer, including construction and architectural works, power supply – high and low voltage, backup power supply by a diesel generator, fire alarm system, security, communication system, phone system, HVAC, specialized technical and computer equipment for custom and cross-border control, landscape.

The project was financed by “Ministry of Regional Development and Public Works”. Total contract value of the object together with the annexes to the contract is 15 746 726 BGN without WAT.

The INOS’s staff successfully and with quality completed the works at the site within the contractual term, following the accepted program, in period 2002 to 2006.

All the questions that occurred during the completion were solved by a competent and professional manner according to the Employer’s requirements and good will.

Our experience with “INOS-1” Ltd. gives us a reason to confirm that it is a very well managed, competent and organized contractor and without hesitation we can recommend this company as a partner, strictly observing the contractual obligations, offering quality construction works.

From “Ministry of Regional Development and Public Works”

Snejina Slavcheva

Deputy Chief
